

I am a listener and supporter of KLove in the local community of Julian, San Diego area. I support the current FM translator service to continue to provide a positive, encouraging radio station in our area. Our community needs a faith based positive radio station. Many commuters rely on this radio station to listen to and from long commutes. I believe our community desperately needs a positive influence that is not found on most other stations in the area. This station encourages people by daily bible verses, prayer, support and encouraging Christian music. Thank you for your consideration.
